WATER ACTION MONTH

Water Action Month is a global advocacy campaign / call for action to decision makers to renew their commitments and prioritization of WASH.

It was initiated in 2016 around the world to celebrate the new global Sustainable Development Goals and particularly applaud the specific WASH Goal 6 - “ensure availability

and sustainable management of water and sanitation for all”.

2030 IS NOT VERY FAR!

Now is the time to ensure that WASH is a top priority, and to ensure the vulnerable and most marginalized groups are not left behind.

March is a month of global action focuses on increased advocacy around

water and sanitation, with civil society organizations acting with one united voice.

Through this global campaign, partnerships are built and leveraged on to ensure that people everywhere have access to safe water and improved standards of sanitation and hygiene.

Be part of the campaign!
